- 26 October - Speech Competition
- Wed 1 Nov - Sumitra Nydoo on Greymont Library
- Wed 15 Nov – Julie Gouws on Alberts Farm

## Last Week

Chris Thompson, our District Governor Representative, gave us a fascinating talk on Lego Robotics. He introduced the Lego Company and their social initiatives. One of these introducing school children to the fascinating world of robotics. The Lego kits contain all the sensors, actuators, motors and microcomputers with a simplified programming language. Schools participate in standardised competitions where the robots must perform a series of pre-defined tasks and the competition is intense. A fascinating talk about preparing the young generation for the future

The pictures are Norman celebrating his 89<sup>th</sup> Birthday and Pres Tommy presenting Chris with the Speakers pen.

After 10 years, the wife starts to think their kid looks kinda strange so she decides to do a DNA test.

She finds out that the kid is actually from completely different parents.

Wife: Honey, I have something very serious to tell you.

Husband: What's up?

Wife: According to DNA test results, this is not our kid...

Husband: Well, you don't remember, do you??

When we were leaving the hospital, we noticed that our baby had pooped. Then you said: 'Please go change the baby, I'll wait for you here'.

So I went inside, got a clean one and left the dirty one there.

Moral: Never give a man a job that doesn't belong to him.
